MISCELLANEOUS INFORMATION

WORKING PRESS TICKETS

Working press and working radio tickets must be obtained from Joe Sherman, Sports Publicity Department, University of Florida, Gainesville, Fla.

PRESS AND RADIO ACCOMMODATIONS

Press and radio tickets for all Florida home games will be handled by the Sports Publicity Department. These games are: Sept. 24, Citadel at Gainesville (Night); Oct. 15, Vanderbilt at Jacksonville (Night); Oct. 22, Georgia Tech at Gainesville (Homecoming); Oct. 29, Furman at Gainesville (Night); Nov. 5, Kentucky at Tampa (Night); and Nov. 26, Alabama at Gainesville.

Only members of the actual working press and radio will be admitted to the press box and radio booths. Please advise us the moment you know you will need accommodations. We prefer to get your tickets to you in advance to forestall last minute mixups and potential delay just before kickoff. If you do not give us time to get your accommodations to you, they will be left at the General Information Booth at the Stadium.

ABOUT RADIO BROADCASTS

Radio Station WRUF, Gainesville, will originate the play-byplay broadcasts of Florida's home games for stations within this state. Florida stations interested in carrying the broadcast may obtain information by communicating direct with Major Garland Powell, Station WRUF, Gainesville.

The Athletic Department of each of Florida's home out-of-state opponents (Citadel, Vanderbilt, Georgia Tech, Furman, Georgia, Kentucky and Alabama) will designate a station to originate a play-by-play for that state. Stations interested in joining that broadcast must first obtain permission from Radio Station WRUF, Gainesville, and then make all arrangements for tie-in with the station delegated to originate the broadcast.

Here is your 1949 Florida Football Facts 'n Figures, arranged in this pocket-size edition for the convenience of newspapermen and radio announcers who will have occasion to discuss the Gators during the football season.

Although this is a pre-season publication, every effort has been made to forecast a general football picture which will hold its shape reasonably well throughout the season. Regular press releases will keep you up to date on positional changes, permanently injured players, and other similar information. We hope this booklet will serve you faithfully as a readyreference, and that you will not hesitate to call on us any time we can be of special service. We will be glad to service as promptly as possible requested pictures, mats, or special stories.

The University of Florida plays four games in Gainesville this year-Citadel (Sept. 24), Georgia Tech (Oct. 22, Homecoming), Furman (Oct. 29) and Alabama (Nov. 26). We very sincerely invite you to take these four occasions to visit Gainesville and to become personally acquainted with the University of Florida, and we urge that you do not limit your visits with us to football occasions. Come anytime.

FACTS ABOUT THE UNIVERSITY

LOCATION: Gainesville, Florida, The University City, is located in the north-central section of the State, about equidistant—70 miles—from the Atlantic Ocean and the Gulf of Mexico. It is 70 miles southwest of Jacksonville, 120 miles northwest of Orlando, and 150 miles southeast of Tallahassee, capital of Florida. Now a modern town of approximately 24,000 population, Gainesville is among the South's most rapidly growing cities.

HISTORICAL STATEMENT: In 1853 the foundation work of the present University of Florida was laid in Ocala when a small private school, East Florida Independent Institute, was opened. Florida Agricultural College was established at Lake City in 1883, and by 1905 six colleges were at least in part state supported. With the passage of the Buckman Act in 1905, the University of Florida was established in its present Gainesville location. Its destiny has been guided since that time by four presidents: Dr. Andrew Sledd (1905-09), Dr. Albert A. Murphree (1909-1928), Dr. John J. Tigert (1928-1947), and Dr. J. Hillis Miller (1947——).

ENROLLMENT: The total enrollment at the University of Florida for the regular 1948-49 term was 11,340. This figure includes 9,681 men and 1659 women. Estimated enrollment for the 1949-50 school year is placed in excess of 10,000 students.

COLLEGES: The University of Florida is administered through ten colleges and three schools. The redesignations of the Schools of Pharmacy and of Architecture and Allied Arts and the creation of the School of Journalism from the Department of Journalism were events of the past year. The University's ten colleges include: University, Agriculture, Architecture and Allied Arts, Arts and Sciences, Business Administration, Education, Engineering, Law, Pharmacy, Physical Education, Health, and Athletics. Schools include: Forestry, Graduate and Journalsm.

PHYSICAL PLANT: The University's permanent physical plant, under current expansion, consists of 25 major instructional and research buildings, originally designed to accommodate 3,000 students, and dormitories designed for 1,000 students. Temporary buildings are still providing space for a greatly increased enrollment with ten being used for offices, classrooms, lecture rooms, and laboratories, while thirteen are providing additional dormitory space. Further living accommodations are offered by three Flavet (Florida Veterans) on-campus villages and three off-campus leased apartment buildings for women students.

EXPANSION: Approved construction under way and yet to be completed totals \$9,622,000. Buildings currently under construction include: Classroom-Administration building; seven dormitories, (four for men and three for women), addition to the Law building, student service center, dairy unit, additions to the library, two units to new engineering building, and other miscellaneous buildings including a new horticulture area. Major expansion completed during the past year included new gymnasium-auditorium, addition to cafeteria, infirmary, hydraulics laboratory, and chemistry-pharmacy building.

COLLEGE OF PHYSICAL EDUCATION, HEALTH AND ATHLETICS

The University's College of Physical Education, Health and Athletics, now in its fourth year, provides a well-rounded program of sound professional training, instruction in physical and mental development through sports, an outstanding recreational program suited to

Dean Stanley

student and faculty needs, and an excellent program of student health.

The College is headed by Dean Dennis K. (Dutch) Stanley, a Florida alumnus and regular end on the fine 1928 Gator football team. Stanley was head coach of Florida football in 1933, 1934 and 1935. Dean Stanley is also a graduate of Pennsylvania State College.

The College is composed of five departments: (1) Professional Curricula, (2) Student Health, (3) Required Physical Education, (4) Intramural Ath-

letics, and (5) Intercollegiate Athletics.

The Professional Curriculum offers the Degree of Bachelor of Science in Physical Education and Health. Students who major in this course are prepared for careers in athletic coaching, the teaching of physical education and health, and preparation in the rapidly expanding field of recreation. In addition, state certification may be secured for the teaching of such subjects as English, history, chemistry, mathematics, physics, and the biological sciences.

The Student Health Department embraces the University Infirmary and provides a preventative and clinical program designed to safeguard the health of the student body. Provision is made to check the students' physical condition, and to hospitalize and treat acute illnesses.

Required Physical Education is designed to provide a program of sound body exercise for both men and women students, and to offer them the opportunity to receive training in recreational sports.

Intramural Athletics and Recreation sponsors a program of 14 sports adapted for participation by the entire student body.

The advent of co-education at Florida in 1947 brought about the installation of an excellent program of physical education and recreation adapted to the needs and interests of all women students.

Intercollegiate Athletics includes football, basketball, baseball, track, swimming, golf, tennis, and cross country. There are varsity and freshman teams in all sports.

The physical plant includes Florida Gymnasium (completed in June 1949); the Infirmary; Florida Field (football stadium); Graham Field (track stadium); Perry Field (baseball and recreation); swimming pool; 22 all-weather tennis courts; and 16 handball courts.

The College of Physical Education, Health and Athletics has rounded into a valuable service college for every student-man or woman-of the University of Florida. Without in any way minimizing the tremendous values of purely academic instruction and application, it is adding to the richness of University experience by stressing the importance of physical fitness, competitive will, and the need for wholesome recreation in a happy and useful life.

THE GATOR COACHES

RAYMOND (Bear) WOLF Head Coach, University of Florida

A Texan since the tender age of four, Chicago-born Ray Wolf did his collegiate gridiron cavorting at Texas Christian University. He served there as assistant coach and at the University of North Carolina as head coach for six years before becoming the top man of University of Florida football

in the spring of 1946.

Ray Wolf

As a schoolboy athlete in Fort Worth, Wolf was some shakes on the gridiron, the diamond, and the basketball court, with a short side trip down the track straightaway. He collected four letters in baseball, two in football, a pair in basketball, and added one in track as a senior when he was drafted from the diamond long enough to win one hurdle race.

At Texas Christian, under the coaching of Matty Bell, Wolf won his football letters as

a sophomore and junior, but was benched by a bad knee his senior season. As a sophomore he was a tackle, and as a junior an All-Southwest Conference guard.

Ray's great moments of playing jubilation and dejection came when he fired a tough-angle 43-yard fieldgoal to defeat Arkansas 10 to 7 in 1926, and when he missed a straight-away 20-yarder against SMU when three points would have meant the Southwest Conference championship.

Wolf started his professional career as a baseball player, but the same bothersome knee proved too heavy a millstone. His one appearance at the plate in major league baseball brought, as he describes it, "A screaming drive right back through the pitcher's box. The only thing wrong was that it resulted in a double play."

Wolf returned to TCU in 1928 as freshman line coach, and was elevated to varsity line coach when Francis Schmidt took over the Horned Frogs the next season. Coaching baseball all the while, he remained at TCU until accepting the head coaching spot at the University of North Carolina in the spring of 1936.

There he got his biggest thrills (aside from dumping traditional rival Duke University a couple of times) by watching his Tar Heels come from behind to tie Tulane 14-14 one Saturday and then upset favored Pennsylvania by a 30 to 6 score the next week.

After a four-year stretch in the Navy at pre-flight schools in Georgia and Texas and at Naval Air Stations in Miami and Pensacola, Wolf cast his coaching lot with the University of Florida Gators in time to direct the

1946 spring practice. In 1946 Wolf's first Florida team, a freshman outfit conjured from nowhere, turned in a season of spirited, colorful football and was held scoreless only once, but failed to produce the fruit of a single victory. In 1947, grown from collegiate football infancy to adolescence, the Gators got off to a typical sophomoric start with three straight losses before breaking the streak with a 7-6 upset win over N. C. State. They ended the season with four wins, five losses, and a tie.

Wolf's 1948 Florida crew broke even in 10 starts, and won their first SEC victory under The Bear by trimming Auburn by a 16-9 count. The Gators should be tough to push around in 1949, but they play a schedule that's just about as rough as they come.

Rwomey graduated from the University of Notre Dame in 1930

with a Bachelor degree in Commercial Science. He played two
years as a tackle under that immortal
mentor of the Fighting Irish, Knute
Rockne, and while doing it made a number of All-America first teams, and the second teams of both the Associated Press and United Press. To his immediate left on United Press. To his immediate left on the scrimmage line was Jack Cannon, Notre Dame's unanimous All-America of that year along with quarterback Frank Carideo. Twomey was a regular with the South Benders when they started a 27-game victory streak. His biggest football thrill as a player came in 1929 when the Irish played Southern California for the national championship in Chicago. Notre Dame won a 13 to 12 victory before foot-Ted Twomey

Universities of Georgia, Kentucky, Texas,
the Was in the USNR from 1942 until joining
the Florida staff in February of 1946.

BACKFIELD COACH STERLING DUPREE

Sterling Dupree was born at Sylvester, Georgia, on November 9, 1909 and attended grammar school and high school there before entering Georgia Military College for his final schoolboy year. At Sylvester High School Dupree played three years each at football, basketball and base-

ball. During his senior year at GMC he was a football end, basketball forward, and baseball second baseman. Dupree entered Auburn in September of 1930 and graduated

A couple of springs into the open as a Tiger sophomore fullback and subsequent quick trips to the end zone prompted coaches to think he might have track pos-sibilities. He did. To the extent of win-ning the SEC 100 and 220 yard dashes his junior and senior years, establishing new conference records of 9.7 and 21.0 respectively. Dupree was Auburn's regular fullback on the undefeated (once tied) 1932 team. That year he was selected on

Sterling Dupree

the Coaches-Officials All-SEC team. As a senior he placed 4th in the 100 and 5th in the 220 at the National Collegiate track meet in Los Angeles. After graduation, Dupree was backfield coach at Auburn under Jack Meagher for the seasons of 1935-36-37. He then went to the University of South Carolina as backfield coach and track coach from 1938 through 1940. He was overseas with the late General George Patton's 3rd Army for 16 months and received four battle stars, one of them for the Battle of the Bulge. Dupree returned to the University of South Carolina for the seasons of 1946 and 1947, and took over his backfield coaching duties at the University of Florida in June of 1948.

END COACH PERRON SHOEMAKER

Perron Shoemaker was born at Silas, Alabama, on January 14, 1916 and moved to Beaumont, Texas, with his family when 15 years old. He lettered three years each in football, basketball and

Perron Shoemaker

baseball at Beaumont's South Park High and was an All-Southern HS end in 1933. He graduated in Education from the University of Alabama in 1939 after winning three varsity letters each in football (as an end), basketball (as a guard) and baseball (as a catcher and outfielder). In 1937 he made the All-Southeastern Conference football team and received All-America honorable mention. That same year he was voted the best all-round athlete at Alabama. His Crimson Tide team of 1937 lost the 1938 Rose Bowl game to California, 0 to 13. For four years after graduation he was varsity end coach and basketball coach at the University of Chat-tanooga and played professional baseball with Montgomery, Augusta and Pensacola. During a 26-month stretch in the Army, Shoemaker spent 22 months in action overseas. He then returned to Chattanooga for

the 1946 season before moving to the University of Idaho (Pacific Coast Conference) for two years as varsity end coach. He reported to the University of Florida as end coach in February of 1949. 6

RESERVE COACH SAM McALLISTER

Born in Chicago on April 19, 1903, Sam McAllister did his college, football, basketball and baseball playing for St. Marys and St. Viators Colleges. He received his General Science degree from St. Viators in 1926, and upon graduation

became head coach of football, basketball, baseball and track for a four-year period. He then joined the Auburn staff as line coach for a year before returning to Chicago for a year in business. He served as line coach at the University of Georgia during the season of 1935 and came to the University of Florida in 1936 as football line coach and varsity basketball and baseball until he entered the Navy in 1942 for a 42-month period. He returned to the Gator staff in 1945 and this year will coach the varsity reserves.

Sam McAllister

FRESHMAN COACH PAUL SEVERIN

Paul Severin

Paul Severin made his world debut at Natrone, Penna., on August 14, 1918. He was a four-sport athlete (football, basketball, baseball and golf) as a schoolboy and graduated in Physical Education from the University of North Carolina in 1941. He made three football letters as an end with the Tar Heels and captained the 1940 team; he added two more letters in basketball as a forward; and two more as a golfer. Severin made the All-Southern Conference football team three years and the All-Conference basketball team once. He made the AP and several other All-America football teams as a junior and made practically all of the All-American teams as a senior. He coached at Wilmington (N. C.) High School before entering the Navy. Severin joined the Gator staff in 1946 and was varsity end coach for three seasons. This year he is head coach of freshman football and basketball.

ASSISTANT COACH JULIUS (MUSH) BATTISTA

The sun first peeped over the horizon for Mush Battista in Endicott, N. Y., on October 1, 1916. He won four letters in football and three in track and captained both teams for Endicott High. As a senior he played against Clearwater (Fla) High School in a milk fund football game, and entered the University of Florida the following fall to graduate in Education in 1941. Battista won his football spurs three times as a guard under Coaches Josh Cody and Tom Lieb. After graduation he was assistant freshman football and track coach at Florida before entering the Air Corps for a four-year period, He returned to the Florida staff in February of 1946, and will coach the freshman line this fall.

Mush Battista

ASSISTANT COACH DAVE FULLER

Dave Fuller

Dave Fuller began his journey through life at Wake Forest, N. C., on April 7, 1915. He attended high school in Wake Forest and Raleigh and received his Bachelor degree in Education from Wake Forest in 1940. With the Deacon basketballers, he played in the 1939 national collegiate basketball invitation tournament at Philadelphia and was on the short end of a 53 to 62 loss to Ohio State. Fuller played football with Wake Forest as a tailback; and was a baseball first baseman. A threesport coach at Hertford (N. C.) High School before going into the Navy, Fuller joined the University of Florida coaching staff in 1946. This year he is freshman backfield coach and head coach of varsity baseball.

THE FLORIDA OFFENSE

THE SYSTEM

After some twenty years as a double wingback player and coach, Florida's mentor Ray (Bear) Wolf turned to the T-formation in spring practice of 1947 to better utilize the speed and elusiveness of fast-moving backs and none-too-bulky linemen. Florida had a 4-5-1 record its first year with the "T" and a 5-5-0 season with it last year. It is the standard "T", with or without the man in motion.

RUNNING GAME

The halfbacks have handled the major portion of Florida's ball carrying for the past two years, but fullbacks Russell Godwin and Myron Gerber are expected to handle much more of the brunt this Myron Gerber are expected to handle much more of the brunt this fall. As a result, the overall running game should be better balanced, more versatile, and harder hitting. In 1948 the ball was handed off to the halfbacks on 334 running plays (a six-play reduction over the year before), to the fullback 70 times (an increase of 18 plays over the previous year) and 53 times for the quarterbacks (an increase of one run over the year before). Just as the fullbacks are expected to get more running duties, so are the quarterbacks. In spring practice quarterback Bob Gruetzmacher perked up as a definite running threat from the ball-handling position. A typical quick-thrust T affair, the Florida running game had a per play average of 4.5 yards in 1948. The top break-away runner of 1949 should be left halfback Charlie Hunsinger, who topped the runners last fall with 842 yards and an average of 7.3 yards per run, and right halfback John Cox. Hunsinger is the elusive type speedback, while Cox is more powerful and almost as fast. Spot runners Hal Griffin, Loren Broadus and Jim Yancey are smaller in statue, but plenty dangerous.

PASSING GAME

Veterans Vic Viccaro, Bob Gruetzmacher and Angus Williams Veterans Vic Viccaro, Bob Gruetzmacher and Angus Williams will get most of the calls to direct the Florida aerial attack, with Vaccaro probably in the leading role. Spring practice indicated that the aerial route may be considerably more accurate than a year ago and, equally important, probably more versatile. Williams is the only one of the trio who passed any last year. He completed four of ten attempts. Vaccaro completed one of six passes in 1947, but didn't throw any last year. Gruetzmacher has been a halfback for two seasons. been a halfback for two seasons.

PUNTING GAME

This is probably the only phase of the game in which the Gators will attempt the "two platoon" system. Fred Montsdeoca is a punting specialist and will be rushed in the game any time the Gators are looking for distance kicking. He averaged 35 yards on 49 kicks last year, which included zero yardage for one blocked punt and near-zero yardages for several coffin-corner slices. Left halfback Charlie Hunsinger may do some of the footwork when distances up to 35 yards may be sufficient, and halfbacks Billy Parker and Alex Gardiner will be available for the chore when needed.

EXTRA POINTS AND KICKOFFS

Laz Lewis may be the second Florida specialist, primarily as an extra point man and occasionally as a kickoff man. Jim Yancey may get some shots at the extra point, while sophomore center Carroll McDonald is expected to get in some work at both extre pointing and kicking off. Lewis kicked the placement which gave Florida a 7-6 win over N. C. State in 1947 to break a 13-game losing streak. Later the same year he split the cross bars to till Tulane 7 to 7, and the next week his placement downed Miami 7 to 6.

SAFETY MEN

Speed, elusiveness, explosiveness, buckets of color and general gridiron dynamite characterize Florida's safety men in the puntreturning category, and it matters little whether the run-back is being engineered by Charlie Hunsinger, Hal Griffin or Loren Broadus. Usually it is the left halfback, but when the stage is set, both halfbacks may collaborate deep behind the scrimmage line. Hal Griffin holds the current national collegiate punt return average Hall Griffin holds the current national collegate puth return average of 26.7 yards for more than 10 returns, set in 1947. Last year Griffin, watched with hawk eyes by every tackler who covered a punt to the Gators, acted as the decoy and Loren Broadus and Charlie Hunsinger ate up the yardage. Broadus returned five punts 259 yards for an average of 51.8 yards and two touchdowns. Hunsinger returned 9 punts 120 yards for a 13.3 average and one touchdown. The entire batch of Gator safety men averaged 17.0 yards per runback last fall on 25 returns.

BOB GRUETZMACHER—Tampa . . . Senior . . . Age 22 . . . Ht. 5-10 . . . 175 pounds . . . Here's a threat the Gators have been needing . . . A fast, shifty quarterback who can turn a planned pass into a running play for yardage . . . Trying the quarterback spot for the first time and looked encouraging in spraing practice . . . Quick, fast, heady, and tough . . . Hits hard defensively . . Should help considerably in giving the Gators a more diversified attack.

ANGUS WILLIAMS—Tampa . . . Senior . . . Age 22 . . . Ht. 5-10 . . . 165 pounder . . . Lettered in 1945 and 1948 . . . was Gator star in 1945, then went into the service, returning to action last fall . . had a slow start, but hit his peak in the game against Furman, showing championship form before being injured for remainder of season . . If the injury lets him go full steam he should be a valuable member of the Gator quarterback corps . . Major Course: Physical Education, Health, and Athletics.

LAZ LEWIS—Quincy...Junior...Ht. 6-2...185 pounder...Lettered in 1947 and 1948...the lad who "kicks 'em when they count," ... the extra point artist of the Gator squad... will devote his talents to his specialty this season... his one point margins have proven the measure of victory for the Gators in the past (wins over N. C. State and Miami and 7-7 tie with Tulane) and was decisive in Dartmouth's 14-13 triumph over Brown in 1944 when Las was a Naval trainee... spent 16 months in Pacific...Married...Major Course: Education.

LEFT HALFBACKS

CHARLIE (CHUCK) HUNSINGER—Harrisburg, Ill. . . . Senior . . Age 24 . . . Ht. 6-0 . . . 185 pounds . . . In 1948 was unanimous (AP, UP, INS) All-Southeastern Conference half-back . . Will be one of the more talked-of backs of the nation in 1949 . . Georgia's Coach Wally Butts tagged him the South's best running back last year and currently refers to him as "That Thing" . . . FLORIDA GYMNASIUM

The handsome, multi-purpose gymnasium-auditorium which was under construction on the University of Florida campus for upward of two years has been completed at a cost of approximately \$1,600,000. Since June it has housed all phases of the College of Physical Education, Health and Athletics except the Infirmary, which is a separate building.

A three-story and basement fireproof building, the gymnasium-auditorium is designed to meet many needs of the University additional to those of intercollegiate athletics and the intramural and recreational activities of the student body. The auditorium affords the only indoor meeting place capable of seating the entire student body.

Florida Gymnasium, in addition to its unusually practical design and appointments, is a thing of beauty both inside and out. In profile, its three adjoining units are readily apparent: the head-house which contains most of the offices; the intramural gymnasium and recreation area; and the intercollegiate basketball gymnasium and special work rooms. The outside finish of the building is brick. Inside the corridor and office walls and ceilings are artistically finished in a galaxy of attractive colors. All of the woodwork trim is solid mahogany, an unplanned feature brought about when mahogany was substituted for unobtainable gum.

Designed for utmost efficiency in student registration and processing, the building is upon occasions used for these activities and also as headquarters for various educational groups which convene on the University campus.

The basement houses freshman lockers, showers, equipment rooms, and a spacious recreation area for dances, shuffleboard, table tennis, and similar activities; five offices, including those of the building superintendent; and an area which may be adapted for use as sleeping quarters for visiting teams and other groups.

The main entrance of the building opens onto the second floor and the administrative offices of the College of Physical Education, Health and Athletics; offices of the intercollegiate coaching staff; six classrooms; a projection room of approximately 200 seats for studies in visual education; a large exercise room; and the gymnasium concession area.

On the first floor level is the main gymnasium floor, which accommodates four regulation basketball courts; varsity locker and shower rooms; training quarters; intramural offices; a corrective gymnasium; and lockers and showers for use in the University's over-all physical education program. The gymnasium, when used as a single basketball court for intercollegiate games, seats in excess of 6,500 spectators.

The offices of the Professional Curricula in Physical Education are located on the third floor, along with the Library, and the "F" Club rooms.
